## MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MoU) is made and executed on this 06<sup>th</sup> day of February 2024, at Nagapattinam between the KAV biomedical Equipment Training & Education and KAV and EGSPEC (hereafter termed "the parties") formalizes an agreement between the two parties to develop collaborative activities in the areas of applied research, training and education for calibration equipment, placements to enhance safe and efficacious medical product development.

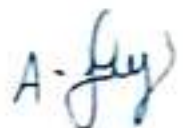

### 1. PURPOSE:

The specific purpose of this MOU is to establish an overarching framework for collaboration between the parties. This framework will be based on mutually agreed upon programs and activities in the areas of applied scientific research, training and education for calibration equipment to foster the development of new evaluation tools to inform medical product development. The scope of MoU is to define a mechanism to promote interdisciplinary research; impart vocational and skill-oriented training, calibration training for medical equipment and other programs to benefits student and staff of both organizations; joint research and academic activities leading to academic excellence; new knowledge generation; innovation technology development; professional skill and competence development; vocational training capacity building and many such synergies of Institute and Company. The parties shall each leverage its own expertise and resources to facilitate programs of shared interests across the diverse disciplines of therapeutics, biological sciences, engineering and medical devices in building applied research and calibration training/ education programs. The appropriate formal agreements will be executed as required by law for any activities that result from this collaboration.

### 2. SUBSTANCE OF AGREEMENT:

The areas of collaboration would include, but not be limited to:

- The concerned experts and corresponding trainers of Institute together will formulate syllabi for training programs, new courses, joint research projects and training for skill oriented Human Resources with due approval of both the institute.

- Training programs on state of art topics of interdisciplinary research for Trainers, student and technical personnel of both the organizations.
- Skill oriented training for biomedical engineering student and graduates.
- Organize the joint Advanced level biomedical equipment calibration training.
- Technology development and demonstration
- Join research projects and publications including work by undergraduate, graduate and post-doctoral students at the partner institutions.
- Trainers and engineer's/ technical person's exchanges.
- Co-operation in academic and research/ training programs.
- Trainers/ technical personnel will be encouraging to deliver lectures/invited talks including online courses.
- Creating placement opportunity to trained students from KAV biomedical.

### 3. SHARING OF FACILITIES:

- KAV and EGSPEC agree to conducting Biomedical equipment & calibration training, placement opportunity for students to promote academic/research/placement/training programs in the areas of cooperation to intensity the high priority area program of engineering and technology.
- Both the organizations agree to share and utilize equipment's, facilities, hardware, software and other materials & components developed in house in the area of co-operation.
- Access to places, and other supporting facilities for jointly supervised academic/research/placement/training programs will be provided by both institutes.

### 4. PARTICIPATION:

This is not a legally binding agreement.

## **2. INTENT TO COLLABORATE**

It is the intent of the Parties to jointly collaborate on the implementation of these activities.

## **3. BACKGROUND**

3.1 VMMC & EGSPEC believes that collaboration and co-operation between themselves will promote more effective use of each of their resources and provide each of them with enhanced opportunities.

3.2 The Parties intended to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education and Research.

3.3 The Parties hereby express their willingness to combine their resources for skill development in medical technology and related sectors, and work towards promoting the growth of the sector by creating necessary eco-system for the said purpose

## **4. ROLES AND RESPONSIBILITIES**

### **Activities shall be promoted**

1. Collaborative Research in the field of Artificial Intelligence in developing health care facilities
2. Combined involvement in delivering academic activities like Conference, Seminar, Workshops and Guest Lectures
3. Student Exchange for Internship and training purpose with nominal charges
4. Outreach activities to the community in conducting Health care camps and awareness programs

### **VMMCH Responsibilities**

1. To provide Resource persons related to medical subjects for academic as well as research activities
2. Biomedical Engineering section for providing the students internship and training
3. To provide medical experts for the multidisciplinary research work
4. Medical and Nursing team to provide service in the organized camps and awareness programs

### **EGS Pillay**

1. To provide Resource person related to biomedical technology for academic as well as research activities
2. Biomedical Engineering Department shall be used for students training
3. To provide Engineering and Biomedical technology experts for the multidisciplinary research work
4. Public relation team to jointly organize camps and awareness programs

### **5. CONFIDENTIALITY**

(a) The EGS Pillay and VMMCH agree to hold in confidence all information/data designated by the institutes as being confidential which is obtained from either institute or created during the performance of MoU and will not disclose the same to any third party without the consent of the other institute.

Ravichandran, Head of the Institution, hereafter referred to as "Party of the SECOND Part" or "ICPEEC" which expression whenever it occurs, shall mean and include the representatives, administrators, successors or interest and assigns.

Both parties hereinafter shall collectively refer to as "Parties"

### 1. WHEREAS

1. The Party of the FIRST PART is a Council for Biomedical Engineering Skills in India promoted by the IASPTG, in collaboration with Medical Device Industry stakeholders in India, which has the mandate to test and grade the competency of Biomedical Engineering professional skills in India. BSC is recognized by Ministry of Skill Development & Entrepreneurship, Government of India. BSC has its independency & unique identity to certify Biomedical professionals and deliver skill training programs.

- II. The Party of the SECOND PART is E.G.S. Pillay Engineering College (Autonomous), Old Nagore Road, Thethi, Nagapattinam – 611 002, is a young and vibrant autonomous engineering college. Approved by AICTE, New Delhi is located at Thethi, Nagapattinam. It was established in the year 1995 under Dr. Chev. G.S. Pillay Founder, Smt. S. Jothamani G. S. Pillay Chairman.
- III. The Parties hereby express their willingness to enter a Memorandum of Understanding to set out the frame work to carry-out training of learners as per job roles(s) related to Medical Device Industry.

### 3. PREAMBLE

- 1.1 IBSC is engaged in Skill Development, Education, Hands-on-Trainings and R&D services in the fields of Medical Technology and related fields.
- 1.2 EGSPEC is a higher educational institution established in the year 1995. Nagapattinam Institute of Technology has evolved as one of the top institutions in Tamil Nadu, branded as an Industry Connected Institution among the education fraternity. To impart industry relevant skills, EGSPEC has collaborated with various industries exclusively to setup, Centers of Excellence (CoE) to carry out training and to give a real-time hands-on experience. The Institute focuses on holistic development of students by adopting the most innovative and creative dimension to impart quality education and employability skills. EGSPEC has also recently drawn the attention of the industries and other global community for its radical approach in inculcating Innovative Learning Program (ILP). ILP has diversified the teaching learning process and its environment by incorporating more practical sessions and involvement of students in various technical and non-technical activities to realize their skills, talents and passion.
- 1.3 IBSC & EGSPEC believes that collaboration and co-operation between themselves will promote more effective use of each of their resources and provide each of them with enhanced opportunities.
- 1.4 The Parties intended to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education and Research.

- 1.5 The Parties hereby express their willingness to combine their resources for skill development in medical technology and related sectors, and work towards promoting the growth of the sector by creating necessary eco-system for the said purpose.

#### **4. SCOPE OF MoU**
